

ELOA
UNIQUE LIGHTS

ELOA - UNIQUE LIGHTS
art objects for your home

Light objects float weightlessly in space. Fragile, iridescent, timeless. Solitary, or in constellation, ELOA lamps create individual light concepts that remind us of star constellations. Hence the objects' names.

ELOA combines the craft of ancient glassblowing with a simple, yet distinct design. To achieve the large size of the glass objects while working without forms requires a high level of refined craftsmanship and skill, which can only be performed by a few master glassblowers in Bohemia. These objects exist as pendant, floor, standing, and wall luminaries as well as bowls and vases.

ELOA was founded in 2015 by the Swiss designer Simone Lüling, who is based in Berlin. Simone Lüling designs and coordinates the objects with the vision of combining simplicity and high-quality artisanship.

SILVER SMOKE M · L · XL

HAUMEA AMORPH

HAUMEA is an elliptical asteroid with a crystalline surface. ELOAs HAUMEA is topped with the clear brilliance of crystal. This brilliance then blends down softly into gradients of milky color, which can seem wonderfully polar or soothingly warm depending on its orientation within your gaze. Its shape is quiet, balanced, peaceful, and harmonious, helping it to become one with the room while grounding the space. The integrity of the blown glass gives it the flexibility of looking beautiful anywhere, whether used as a table piece or as a pendant lamp.

SILVER SMOKE M · L · XL

SEDNA

ELOAs SEDNA is shaped naturally amorph, balanced, peaceful, and harmonious, helping it to become one with the room while levitating in the space. The brilliance of crystal blends down softly into gradients of color, which can seem wonderful soothingly and balancing. The integrity of the blown glass gives it the flexibility of looking beautiful anywhere, whether used as a table piece or as a pendant lamp.

AMBER IRIDESCENT M · L · XXL

SIRIUS

Sirius is the most visible star in the sky. SIRIUS combines the liveliness of light with the beauty of organically rounded horizontal shapes – bringing a majestic feeling of levitation into your space. It sparkles, suspended from the ceiling, with its pleasingly irregular form creating an impression of quiet movement throughout the room. Its iridescent amber hues contain all the colors of the light spectrum – giving out a warm glow and surrounding you with a cozy cocoon of calm.

CONSTELLATION: ASTREA - SEDNA - HAUMEA AMORPH

Floating like colorful soap bubbles - ELOA's pendant lamps are available in various shapes and colors. This poetic and sensual CONSTELLATION of unique glass shapes and hues is reminiscent of hovering soap bubbles, radiating calm and elegance. These extraordinary pendant lamps are simultaneously art installation and functional design. During the day they enchant with the intensity and transparency of their colors. At night, the warmth of their light is a wonderful invitation to relax after a busy day.

PLANETOIDS

Planetoids are small asymmetrical objects that float delicately in space. Combine their various forms and colors to custom-design the celestial ambience of your room. PLANETOIDS are available as individuals or in trios, quartets, quintets, etcetera, etcetera, etcetera - creating infinite variations of your own, personal constellations.

STARGLOW

Shimmering and glittering like twinkling stars, STARGLOW combines ELOA's smallest glass pendant lamps into a cloud of sparkling reflections. STARGLOW appears as a configuration, with 3, 6, or 10 pendant lamps. And STARGLOW's impressions can be intensified all the more by simply increasing the number of elements. Due to its delicate size and Mini LED technology, STARGLOW can be used in many areas of the home to impressive effect. Whether in the lounge area or at the dining table, STARGLOW captivates with its airy and glimmering presence by way of its unique colors and myriad of possible lighting effects.

STATIX

Inspired by the stars in design and name, STATIX combines function with a uniquely eccentric style. With its handmade wooden tripod base, featuring finely crafted metal fixings, it carries us off in much the way that a telescope would - showing us a sky of endless possibilities. With this hand-blown lamp, you can easily adjust its brightness of mood to your preference. STATIX comes in two color variations. The Amber Iridescent version, with its exclusive hand-blown bulb, brings the glow of a sunset into the realm of your personal living space. In Silver Smoke, this lamp surrounds you with the quietly elegant serenity of moonlight. These heavenly beings have a presence all their own; stabilizing and illuminating.

SUPERNOVA IV

Supernova is a rare and magical visual phenomenon that manifests itself as a quick brightness. Exploding stars are the cause of this beauty in nature – and at ELOA. SUPERNOVA was developed after a lucky accident led to the falling of a glass globe. Once the cracks were cut off, new opportunities and functionalities were discovered. SUPERNOVA is a collection of vases and bowls that, though they don't shine themselves, none the less add sparkle to the environment around them.

SUPERNOVA I

The organically shaped bowls of different sizes and forms offer multiple opportunities of poetic harmony. The iridescent amber contains all the colors of the spectrum and fascinates everyone, who comes in touch with it. The pure elegance of silver smoke creates a warm atmosphere and blends in every situation by gently grounding the space.

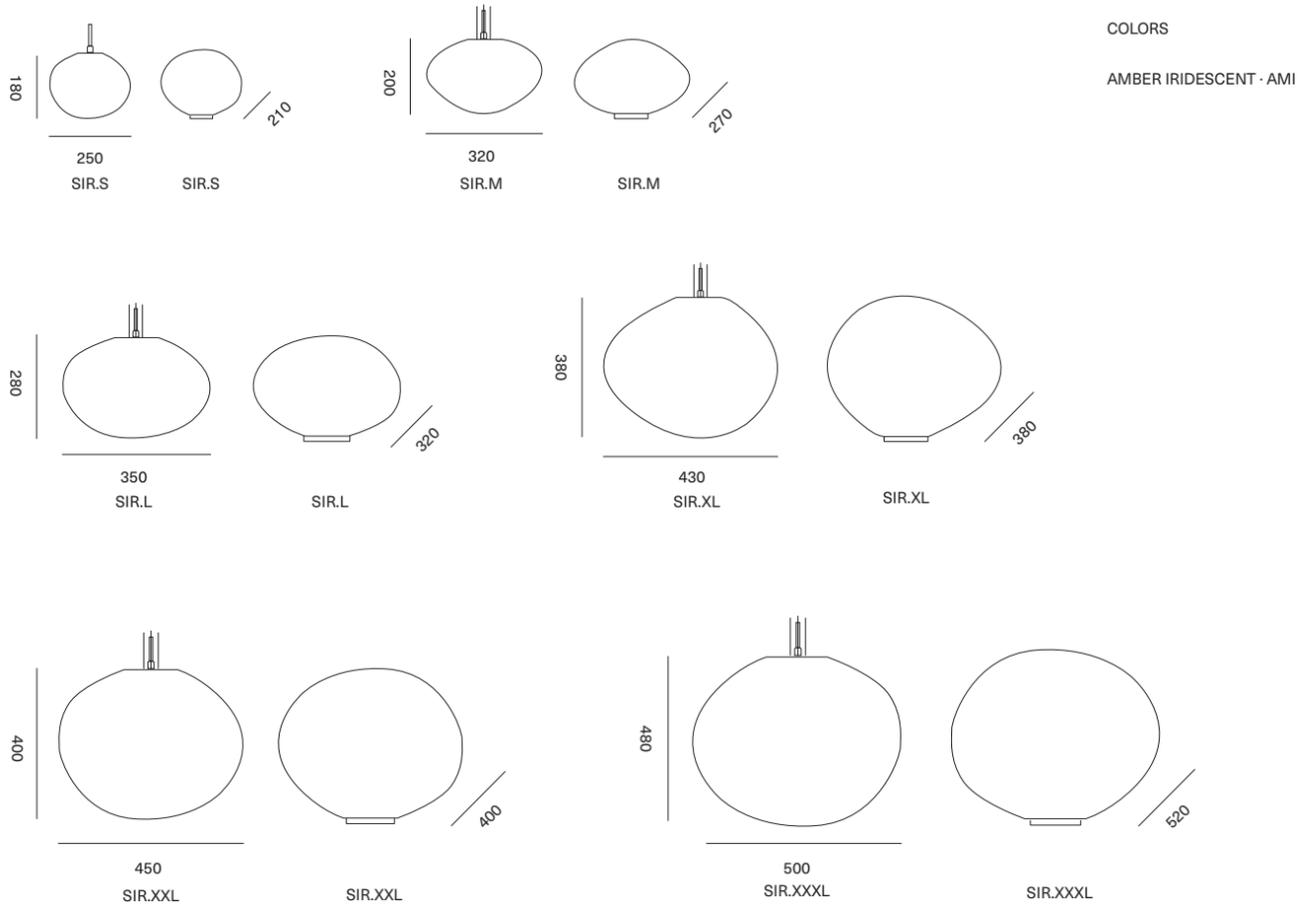

MAKEMAKE

Makemake is reminiscent of Jupiter's ring. It was designed with the double functionality of being a vase and a fruit bowl. In use, the majestic and artistic form is enhanced by the inserted flowers or fruit. The crater-like indentations give the blown glass a presence that dazzles the eye.

GLASS

We use high-quality glass. Irregularities may arise naturally, as this is a characteristic sign of mouth-blown glass.

DIMENSIONS

Dimensions may vary, as these objects are mouth-blown without wooden moulds. Each object is unique.

COLORS

The colors may also vary in gradation, as each basic color contains many variations within itself.

ILLUMINATION

The luminaries come with LED bulbs.
E14 / 450 Lumen / 4 W = power of 35 W
Dimmable per request.
Starglow: LED G4 / 2-20 W / dimmable.
